The Revolution Will Rhyme
by Jillian Hanesworth
(homage to Gil Scott-Heron)

The revolution will not be televised
The revolution will not be streamed live on Facebook,
Twitter, or IG TV
You will not be able to start it over if you missed a part
And you won’t need to tap it twice to see its heart
The revolution will not be brought to you by Nike, the
NFL, or Jay-Z
We will watch it succeed in HD without taking a knee
The revolution will not be televised
The revolution will be live
The revolution will thrive
And the revolution will rhyme
The Revolution Will Rhyme

The revolution will be led by black women who are just tired enough
to do it ourselves
It will be rhythmic enough for us to follow the beat
Using drums and tambourines focusing on the two and four beats
Like a secret language that comes naturally
It will get louder when it’s calling for the people’s attention
And quieter when it wants the people to listen
People listen
The revolution will be direct and unwavering without concern of
being looked at as angry
It will be as big and natural as a black panther’s afro without
worrying about opportunity
It will be as interwoven as locs but there will be nothing dreadful
about it
And when light shines on the revolution it will create a halo around it
The revolution will rhyme
The Revolution Will Rhyme

The revolution will rhyme
It will be syncopated
It will harmonize
It will be call and repeat
The revolution will rhyme
The revolution will leave no man behind
It will not be developed just to be displaced
It’s focus will not be extracted and refocused or repurposed
And the burden of education and comfort will not be placed on the oppressed
While understanding and tolerance is gifted to the oppressor
You will not be able to binge watch the revolution
Rewinding the comfortable triumphs and fast forwarding through the hurt
You will not be able to DVR the revolution or avoid spoiler alerts
Or save it for a day that you choose to see it’s worth
You will not be able to mute the revolution for it will be loud
And you will not be able to shame the revolution for it will be proud
The Revolution Will Rhyme

The revolution will rhyme
It will hold your attention and retain your momentum
It will float like a butterfly and sting like a bee
It will hit even harder than Muhammad Ali
It will stand on the shoulders of those who died on their knees
Screaming “You can take me from my freedom but you can’t take my freedom from me”
The revolution will hold this country accountable forcing it to keep its promises
Promises that guarantee life liberty and the pursuit of happiness
It will be something to behold
It will be so cinematic that Ava Duvernay will create a documentary about it
It will be a complete overhaul not just a quick fix
The Revolution Will Rhyme

The revolution will rhyme
It will not always be politically correct and it will not be required to forgive and forget
The revolution will remember all those who crosses it’s path
With a message fierce enough to make opposition fear its wrath
It will march through the valley of the shadow of death without regret of its path
And it’s coming for what it’s owed refusing to settle for half
The revolution will not be televised
The revolution will be live
The revolution will thrive
And the revolution will rhyme

We are privileged and honored to hear from our beloved Brother West!

“To be human, you must bear witness to justice. Justice is what love looks like in public.”

Dr. West is the People's Philosopher. His goal is to bring the world together and continue spreading Dr. King's message.
“You can’t lead the people if you don’t love the people. You can’t save the people if you don’t serve the people.”

Dr. West has the best interests of the people and will continue fighting for our rights. He will never stop expressing the truth, whether it’s in his writing, his spoken word, or through song.
“None of us alone can save the nation or world. But each of us can make a positive difference if we commit ourselves to do so.”

Brother West sees the strength we possess together instead of battling alone. We make progress and bring light to the challenges facing the world by bringing people together. Brother West is listening to our calls for improvement and wants to help us achieve it.
"None of us alone can save the nation or world. But each of us can make a positive difference if we commit ourselves to do so."

Dr. West has written 20 books and edited 13. He is best known for his classics, Race Matters and Democracy Matters. His most recent book, Black Prophetic Fire, offers an unflinching look at nineteenth and twentieth-century African American leaders and their visionary legacies.

Brother West's writings and expressions of his own prophetic fire ignite the deep strength we possess together. We make progress and bring light to the challenges facing the world as we strive for moral integrity and universal solidarity. Brother West is listening to our calls for improvement and helps us pursue it through Unarmed Truth and Unconditional Love!

RECLAIM ARMISTICE DAY

11.11.20 | 10:30 AM
BUFFALO NAVAL PARK
& LIVESTREAMED ON FACEBOOK
BLACK LIVES MATTER
As peace activists and organizers, we unequivocally stand in solidarity with the black community in the US and around the globe in demanding justice and dismantling white supremacy. We honor the lives of and mourn the deaths of George Floyd, Breonna Taylor, David McAtee, Tony McDade, and countless others who have been murdered at the hands of the racist police.

CLIMATE CHANGE
Climate change is a peace and security issue. The effects of climate change have already caused meteorological, social, and political disasters in the most vulnerable of environments, and extreme weather events are occurring more frequently than ever before.

DRONES
Drones are promoted as a precise tool that save the lives of U.S. soldiers – but that is not true. Drone strikes are authorized with faulty data widely discredited in the intelligence community, and they damage both our short and long-term security by indiscriminately killing large numbers of civilians and fostering ill-will towards U.S. forces.

MILITARY SPENDING
US military spending is at near-record highs under the Trump administration. In 2019-20, the Pentagon budget stood at $732 billion. For 2020-21, the Trump administration is requesting $740 billion.

NUCLEAR WEAPONS
More than 25 years after the Cold War and the Non-Proliferation Treaty, the world’s nuclear stockpiles remain at dangerously high levels. Of the 14,575 estimated nuclear weapons in the world, the United States and Russia have 92% of the world’s nuclear arsenal.
